 - d) Any removal of parts from the spare motorcycle will render it non-eligible to be used as a spare motorcycle during the event in question.
 - e) The wheels and tyres of the damaged motorcycle must be transferred to the spare motorcycle prior to its use as a spare motorcycle as per b) above.

1.17 **Qualifying and Grid Positions**

- 1.17.1 Grid positions for all races in all classes shall be determined according to each competitor's quickest time set during the official qualifying session. Competitors who do not set a time during the official qualifying session will start from the back of the grid.
- 1.17.2 It is the competitor's responsibility to know his/her grid position prior to forming up on the grid. Delaying of the start owing to indecision relating to grid positions shall render the competitor/s concerned liable to be moved to the back of the

grid at the discretion of the Clerk of the Course (CoC).

1.17.3 Where qualifying times have not been recorded for whatever reason, grid positions for Race 1 will be as per championship points standings to date, and thereafter by race number.

The spare motorcycle must comply with all class requirements. Use of a spare motorcycle shall not affect the competitors qualifying or grid position.

1.18 **Starting Procedure**

1.18.1 Refer to the MSA Circuit racing SSR's 38.

1.18.2 The pit exit shall be closed when the 1-minute starting signal is given. The pit exit may only be re-opened when the starting signal has been given and the field has passed the pit exit.

1.19 **Jump Starts**

A competitor who jumps the start will be given a time penalty of 10 seconds.

1.20 **Finishing Procedure**

In order to score points and to be classified as a finisher, the motorcycle must have completed not less than two thirds of the distance of the race (rounded down to the nearest number of whole laps) under its own power.

1.21 **Red Flag**

In the event of a red flag, all riders shall proceed slowly to the start area with no passing being permitted. On reaching the start area, parc ferme conditions will apply.

If 75% of the scheduled distance has been completed, the event will be concluded and there will be no restart. Classification will be as if the race had been completed in its entirety and the rider/s that is/are deemed to have caused the red flag will be allocated as a DNF (Did Not Finish) in the results.

If more than two laps have been completed but less than 75% of the scheduled distance:

- The race shall be deemed to be in two distinct parts. The classification of the first part, prior to the red flag, shall solely be used to determine the starting order of the second part.
- The distance of the second part will be that required to complete the scheduled race distance.
- The classification of the second part will determine the riders finishing position.
- Unless the Stewards of the Meeting rule otherwise, all motorcycles will be in a parc fermé between the two parts of the race.
- Only those riders still competing at the end of the first part of the event and who arrive at the start area under their power and using an authorised route, will be

- allowed to compete in the second part. No spare motorcycles will be permitted.
- The rider/s that is/are deemed to have caused the red flag can rejoin the second part of the race but will start from the back of the grid. No spare motorcycle/s will be permitted.
- If a rider/s enters the pits instead of forming up on the grid the rider/s will not be allowed to join the second part of the race and will be allocated as a DNF (Did Not Finish) in the results.

If less than two laps of the race have been completed by the leader, the original start shall be null and void and the race shall be restarted and all starters in the original start may compete again. Competitors may substitute other vehicles of the same make and model subject to the approval of the Scrutineers. No reserve entries will be admitted. The race will be considered a new race and the full time or distance will be covered.

In instances where a race is stopped, and then re-started, no replenishment of any liquid in the vehicles shall be permitted in the intervening period. The onus rests on competitors to ensure that their vehicles are carrying enough fuel to cater for any such situation and excessive fuel usage during a race stoppage and re-start situation shall not be considered as a valid mitigating factor should a vehicle be found to be underweight at the end of a re-started race.

- 2.2 Fluid containers other than for drinks or clear water are prohibited in the pre-race paddock (where applicable) and/or on the grid unless prior permission to the contrary has been granted by the Clerk of the Course.
