## FIM legal representative in South Africa

This is to certify that the **Motorsport South Africa (MSA)** is the sole governing body for motorcycle sports in South Africa, and is affiliated with the Fédération Internationale de Motocyclisme (FIM) since 1996.

This recognition is given to only one National Federation per country that governs motorcycle interests and sports activities at national level. MSA's main duties are to sanction and organise national championships, to issue national competition licenses, issue safety event permits and implement the rules and regulations for all relevant competitions and ensure that MSA riders take part in national events.

The FIM is recognised by the International Olympic Committee (IOC) and is the sole international organisation acting in all matters connected with motorcycling activities (sporting & non-sporting) and defending the rights and interests of motorcycle users and industry.

The undersigned remains at your disposal should you require any additional information.

Yours sincerely,

Nita KORHONEN  
FMN/CONU Liaison Director
